Form 990 p 2: Line 4a Description-1

1. Creating Independence through Assistance Dog Teams:

A. Paws With A Cause® ("PAWS") exists to provide opportunities for people to live with dignity, companionship, and confidence.

B. PAWS Client, Annette, is completing a PhD in Economics with a specialty in disability employment policy. Here is what she has to say about Assistance Dog, KIRBY's impact on her life, "Nobody can believe I have a dog that empties the dryer. If you ask him to come help, he loves to do it. KIRBY picks things up. He goes with me to the Farmer's Market. He even helps me get my jacket on. I discovered how much better it is having a dog do that than having a person do it. When a person helps me put my jacket on, they pull my shoulders up and it hurts. KIRBY pulls down, and just like everything else he does with me, it makes a world of difference. He's added some balance to my life-I have to slow down and take time to take care of him just like he takes care of me."

C. PAWS currently supports over 400 active Client/Dog Teams across the United States. PAWS custom trains and places four types of Assistance Dogs: Service Dogs, for adults with mobility issues; Seizure Response Dogs, for adults with epilepsy; Hearing Response Dogs, for adults who are deaf or hard of hearing; and Service Dogs for Children with Autism, for families with a child under the age of 12 with Autism. On average, an Client/Dog Team remains active for ten years, after which the canine partner retires as a family pet, and the client may request a new Assistance Dog placement.

D. The PAWS Client Services Team evaluates each request through a multi-step application process to ensure that an Assistance Dog can meet the client's needs and lifestyle and that PAWS can create an optimal match to meet those needs. The prospective client completes an application, which collects information related to their personal goals and their specific disability including how it impacts their life. The application also informs the client of both the benefits and challenges of having an Assistance Dog. Further, PAWS reviews all applications to gain perspective on the prospective client's physical, mental, emotional, and social support as well as their financial resources.

E. Needs Assessment: After a prospective client finishes the initial application, the client completes a Needs Assessment which entails a home visit, an interview, and videotaping of their daily activities.

F. The Match: After a client completes the application and Needs Assessment, the PAWS team matches the client to the optimal canine partner in terms of needed skills, temperament, and personality, and then customized training begins. The matching process is a joint effort by the Client Services Team and the Canine Training Team and relies on the client application, the Needs Assessment, and conversations with the client.

G. When the match is made, the dog enters a customized training program, which can last from four to ten months depending on the number and complexity of skills being trained. During custom training, professional staff specializing in training Assistance Dogs train the dogs in up to 30 individual skills, based on each client's specific needs. These skills include using adaptive equipment to open doors or call for help and retrieving items or alerting to sounds. At the same time, the client is assigned a PAWS Field Representative who equips and prepares the client's home and workplace, along with their family and friends, for the introduction of a live teammate. Field Representatives live in each of PAWS' service areas and provide local, personalized support to the Client/Dog Teams.

H. At the end of the custom training period, the dog is placed in the home with the client and is ready to become part of an Client/Dog Team. Working with the Field Representative, the client forms an appropriate bond with the dog and learns how to utilize the training that the dog has received to create an optimal partnership. There is no cost

Form 990 p 2: Line 4a Description-1 (Continued)

to our clients for a PAWS Assistance Dog or the continued support that a Field Representative provides throughout the life of the dog.

I. The Client and Field Representative work together until the client is certified meaning that they are a fully functional team and is recognized as deserving of all the access and protections for Client/Dog Teams afforded under the Americans with Disabilities Act.

J. Over the past year, PAWS placed 51 dogs with clients and certified 51 new first-time Client/Dog Teams.

2. A Commitment to Lifetime Support to PAWS Assistance Dog Teams:

A. Paws With A Cause currently serves and supports over 400 active Assistance Dog Teams across the United States. A PAWS Client Representative speaks with each team minimally one time per year, and a Field Representative returns to the team's home every other year.

B. After the initial certification, PAWS formally recertifies Client/Dog Teams every two years ensuring that the dog is still meeting the client's needs and that the team still meets the certification standards set by PAWS and Assistance Dogs International. If a client's needs have changed or additional training support is needed, the Field Representative answers questions and provides additional training. The Field Representatives also ensure that the dog is healthy, and their equipment is being used effectively.

C. Follow-up meetings may also include creating awareness of any new information or services available from PAWS, such as education about safety issues, equipment changes, access to legal issues, and information about program updates and changes available to them.

D. Both the formal recertification and on-going support are provided at no cost to PAWS clients.

E. PAWS recertified 77 Client/Dog Teams this year.

3. Adaptive Equipment Development:

A. Due to the unique abilities of each person, we work with the PAWS Research & Development Department to custom design and build adaptive tools with each of our client's end use and individual abilities in mind. Currently, our team is continuously innovating, changing, and improving the 138 different pieces of equipment we can supply to our teams.

B. As part of the custom training, PAWS dogs are trained to use this adaptive equipment. These adaptive equipment materials are provided to the client as part of the placement. Customizing the equipment helps to ensure the success of each Client/Dog Team. Additionally, PAWS will provide equipment to the Client/Dog Team throughout its lifetime to maintain optimum support and performance of the team.

1. Breeding, Developing, and Supporting the Highest Quality Dogs & PAWS Dog Volunteer Program:

A. PAWS Dogs are lifelines to the people and communities they serve. PAWS Dogs deserve and receive the highest quality care from breeding through placement with a client. PAWS has a nationally recognized breeding and

foster puppy program to raise future Assistance Dogs. We focus on Labrador Retrievers, Golden Retrievers, Papillons, and Standard Poodles for our Assistance Dog program.

B. Breeding Program: PAWS develops and maintains the best possible colony of breeding stock dogs in order to produce high quality Assistance Dogs. PAWS also partners with reputable breeders nationwide to help maintain genetic diversity within the program. Volunteers, with support from PAWS professional breeding staff and the PAWS veterinarian, care for PAWS breeding stock dogs in their homes. These volunteers whelp each litter and house the puppies for eight to ten weeks. This year, PAWS welcomed 10 new dogs as breeding stock into the elite PAWS Breeding Program.

C. Foster Puppy Program: At eight to ten weeks of age, puppies are placed in volunteer foster puppy homes for 12 - 14 months. During this time, volunteer homes help to socialize our puppies and provide early obedience and attention training. This time in a foster puppy home is crucial for the puppy to reach its full potential as an adult. Foster Puppy Raisers work with Staff Trainers, Field Representatives, and our Foster Puppy Department, attending weekly training classes and public access outings during the time they are raising their new charge.

D. PAWS Dog Volunteers: Over 450 individuals and families participate in the PAWS Dog Volunteer program ensuring that our mama and papa dogs are well taken care of, and puppies receive the highest level of care and development during their first 14 months. The impact of this program is best described by PAWS Client Molly: "My life is measurably better because a PAWS volunteer played a part in getting MATER to me."

E. PAWS Prison Partners Program: After leaving their foster puppy volunteer home, PAWS puppies enter their next step of training in the PAWS Prison Partners Program, which is a collaborative program with the Michigan Department of Corrections. For four months, PAWS puppies are placed in one of four correctional facilities and paired with two inmates, who provide care and training to their PAWS Dog partner 24 hours a day, seven days a week. Inmates participating in this program receive a PAWS standardized training curriculum and attend weekly classes with PAWS staff. Prison locations include Saginaw, Lapeer, Carson City, and Muskegon.

Statement C:

1. PAWS Facility Dogs:

A. There is a growing need for facility dogs in schools, hospitals, and other community service agencies. A Facility Dog, trained in obedience and specialty cues, is used in the work setting under the direction of a human handler, who has been trained in specific techniques which enable the dog to serve as a tool and a motivator, thus enhancing the accomplishment of client-related goals. Schools are increasingly looking for ways to support the social-emotional learning of students, while creating models for the prevention of bullying and violence. Hospitals are creating safe and welcoming environments to ease stress and to promote healing. Dogs are at the forefront of these interventions providing a bridge for students, patients, and staff who have challenges in difficult emotional situations.

B. In Summer, 2019, PAWS launched a new program to place Facility Dogs in community settings. PAWS staff meets with the facility staff as well as the individual who will serve as the dog's primary handler at the school, hospital, or other community site. Our staff learn about the population to be served, the community site's needs, and the overall environment. Using the information from this site visit, PAWS custom selects a dog for that facility.

C. Carrie Balk, the Principal at Three Rivers High School, shared about the important work their Facility Dog TANNER does, "Mental health is an area of focus for staff and students. The last couple of years have been challenging

for a number of reasons. TANNER is an excellent listener, and he doesn't judge. Sometimes students just want a break and a few minutes of quiet. TANNER is adaptable and can go from quiet time with a student in the counseling office to playing fetch in the courtyard with the PE students without missing a beat."

D. PAWS Facility Dogs complete the foster puppy obedience and public access training. After receiving this initial training, the dog will receive an average of eight additional weeks of assessment and training with PAWS staff for the facility placement.

E. A PAWS Field Representative trainer is assigned to the community partner, who will support the new team. The field representative helps the handler to learn how to work with the dog and to integrate the dog into the community.

F. When ready, the team is tested and certified by PAWS to ensure that the facility dog team has the skills and temperament for the facility placement. This year, PAWS placed 27 facility dogs.
